

Grouse Hunting

Resort Season: September 15th to Oct 31st

Grouse hunting is a relaxing pastime that is getting more and more popular every year. What can be more rewarding than taking a long walk on a cool fall day and wandering through the wilderness and enjoying the fall foliage? The clean air and exercise combined with the thrill of the hunt makes for the most enjoyable vacation.

The region around Wawang Lake is a system of animal trails, ATV trails and old logging roads where you can explore miles and miles of wilderness, that is just stuffed with grouse. You can also combine your grouse hunting with our excellent fishing, or, another hunt.

There are three species of grouse found in Ontario. Ruffed Grouse, Spruce Grouse and the Sharptail Grouse. Ruffed Grouse is the most common and comprise 80% of what you will encounter during your hunt.

The limit for grouse in Ontario is 5 per day in any combination of species with a total of 15 in your possession and you will be surprised at the number of grouse we do have. Their cycle consistently remains to stay high.

The most popular guns for grouse hunting are .410 or 20 gauge shot gun and some hunters use a 12 gauge as well. Quickly becoming more and more popular is hunting grouse with a bow. To increase the excitement give a bow a try & the challenge is sure to thrill you. Solid hunter orange is required if you're hunting during the big game rifle season.
